Descrizione dei profili richiesti:

YNAP Graduate Programme – Technology

The YNAP Graduate Programme – Technology will give the unique opportunity to dive deep into YOOX NET-A-PORTER GROUP's Technology Department in Italy and enter in our inspiring and innovative world! Joining the 12 months programme will give you an in-depth experience within our international Development Team and will allow you to learn more about our Agile methodology. You will be able to catch the opportunity to see the latest technologies with your own eyes, working side by side with the best talents coming from the most exciting countries. You will develop

all the skills needed for different IT key roles: Back-end, Front-end and Mobile Developer. Under the guidance of industry experts, you will be part of the regular team and get to work on real business problems. Your experience will be coupled with a valuable hands-on approach and exciting training throughout the programme. Over the course of the graduate programme, you will not only gain a broad and comprehensive understanding of all our Agile teams, but will also have fun working in our amazing offices keeping you busy with extra-curricular aspects of work: company gym, techie and sport communities, after work tech events, dedicated discount for your shopping and so much more are all part of the package.

Skills and Experience:
•	At least Bachelor or Master's degree completed in the last 12 months in Engineering or Technical area;
•	High interest for challenges and a great will to learn, experiment and grow;
•	Passion, knowledge and appreciation for web and mobile development and code writing;
•	Good analytical skills, interest and curiosity for agile and lean methodology;
•	Fluent in Italian and excellent knowledge of English;
•	Results-oriented, top at planning and organizing;
•	Fantastic interpersonal and communication skills.

Location: Zola Predosa, Bologna
